Webinar: Monoclonal Antibody Therapies for Severe Asthma

Conjoint Prof. Peter Wark

**CRE IN SEVERE ASTHMA WEBINAR | 08 December 2016, 1 – 2 PM
HUNTER MEDICAL RESEARCH INSTITUTE | CAMERON ROOM**

Monoclonal antibodies have emerged as new therapeutic options for the treatment of severe, treatment-refractory asthma. This presentation will focus on currently approved therapies and treatments in development. It will also provide insights into the use of these therapies in the clinic.

Dr. Peter Wark FRACP, PhD
NHMRC Centre of Excellence in Severe Asthma
The University of Newcastle
Hunter Medical Research Institute
John Hunter Hospital, Newcastle

Bio:

Peter Wark is a senior staff specialist and a conjoint professor with the University of Newcastle.

His research focuses on the impact of infections on airways disease, with a particular interest in viral infections and acute exacerbations of chronic airways disease.

Refreshments will be provided before the seminar, starting from 12PM, in the Haggerty space.

To attend the **public lecture** please RSVP for catering, by email to severeasthma@newcastle.edu.au

Registration

Prof. Wark's presentation will be available online, as a webinar. To register for the **webinar** please go to:

<https://attendee.gotowebinar.com/register/5963247871308409346>

After the event, the webinar will be made available through the Centre of Excellence in Severe Asthma website (www.severeasthma.org.au).
