Severe Asthma Toolkit **Seeking Expressions of Interest: Members of the Public**

The Centre of Excellence in Severe Asthma (www.severeasthma.org.au) is developing an online "Severe Asthma Toolkit". This toolkit aims to provide resources and tools that will be used by clinicians to guide optimal asthma management. Resources will be designed to aid in the implementation of best practice across all settings, including the hospital, specialty asthma clinics and in primary care.

We are currently seeking expressions of interest from individuals affected by severe asthma, who would like to be involved in the development of the Severe Asthma Toolkit. You will be asked to provide feedback on the overall structure of the Toolkit and drafted contents.

If you are interested in being involved, please submit an expression of interest. Please provide information in regards to the following:

- Name & Contact Information
- Your experience of living with severe asthma (e.g. you have severe asthma, your family members have severe asthma, other)
- Why you are interested in being involved with the Severe Asthma Toolkit

Please submit your expression of interest to severeasthma@newcastle.edu.au.

We expect the draft to be ready for feedback in **November - December 2017**.

If you are interested in being involved, please send your expression of interest by **31 October 2017**.

Your contributions and insights into the experience of living with severe asthma will be valued and ensure the final toolkit is relevant and useful.

If you have any questions about this project, please contact Steven Maltby (Project Manager) at steven.maltby@newcastle.edu.au.

On behalf of,
Prof. Vanessa McDonald
