Viral Infections & Asthma Exacerbations

Prof. John Upham
University of Queensland / Princess Alexandra Hospital

Prof. John Upham is a clinical scientist and physician with longstanding research interests in the immunological basis of asthma and chronic lung disease, the role of dendritic cells in allergy and virus infections of the lung, and the development of novel approaches to treatment. He has published over 150 peer-reviewed journal articles and book chapters and regularly publishes in the top international journals in the respiratory and allergy/immunology fields. In recognition of his international standing and influence in the field, he was elected Fellow of the American Academy of Allergy, Asthma & Immunology (2004) and the Thoracic Society of Australia and New Zealand (2015).

Refreshments will be provided before the seminar, starting from 12:30PM (Haggarty space).

To attend the public lecture please RSVP for catering, by email to severeasthma@newcastle.edu.au

Registration
This presentation will be available online, as a webinar. To register for the webinar please go to: https://attendee.gotowebinar.com/register/7063975576398026251

After the event, the webinar will be made available through the Centre of Excellence in Severe Asthma website (https://www.severeasthma.org.au/virus-infection/).
